MAJOR COVID-19 VACCINE UPDATE!

A new executive order by the Governor now permits hospital providers, physicians, advanced practice registered nurses, and pharmacists to vaccinate Florida residents who under the age of 65 and are determined by a physician to be extremely vulnerable to COVID-19!

Publix has already confirmed that they will vaccinate medically vulnerable residents who are under the age of 65, as long as they provide a doctor's note. <https://www.publix.com/covid-vaccine/vaccine-faqs.html>

Publix's COVID-19 vaccination appointment portal will re-open for new bookings at 7:00 AM this Wednesday. **The Publix portal can be accessed [here](https://www.publix.com/Covid-vaccine/florida)** (<https://www.publix.com/Covid-vaccine/florida>).

We will continue to keep you updated as we get more information on the expanded eligibility criteria.

SCAM ALERT Caller ID Spoofing!

The Department of Health in Palm Beach County has recently been informed of calls that look to have originated from our main number in Delray Beach (561-274-3100), asking for personal information such as your Medicare ID, Social Security number, or other personal identifying information. The Florida Department of Health would never call you, unsolicited, asking for personal information. Scammers want to use your data in fraud schemes, costing you money. Don't let them! **If the call seems suspicious, just hang up.**
