

[View this email in your browser](#)

As many of you know from reading the Berman Briefing, we passed [legislation](#) during the 2021 session creating additional specialty license plates.

Included in this larger transportation package was a specialty plate I sponsored ([SB 940](#)), which was later tied into SB 676.

Well, I am excited to announce the plate is here and ready for pre-sales! Check out the image below of what the plate will look like!

[The Women's Breast & Heart Initiative](#) (WBHI) must pre-sell at least 3,000 vouchers in order for the plates to go into production.

Thank you to the WBHI for putting together this beautiful and artistic plate - and not only that, your \$33 will help transform and save lives.

Click [here](#) to purchase your voucher today - and please share with all your friends and family!

Questions? Click [here](#) for FAQs.

Best,

Lori Berman
