

Dear Neighbor,

I hope you had a joyous Thanksgiving, and Happy Hannukah to those lighting their menorahs tonight!

There's a lot going on in Congress right now, as well as new concerns about the spread of COVID-19, which is why I'm excited to invite you to a telephone townhall on **Tuesday, December 7th at 7:00 PM**. It will be an opportunity to provide updates on the big end-of-year efforts underway in Congress, fill you in on the new COVID-19 variant, and answer any questions you have for me.

I'll be joined by a distinguished panel of guests including infectious disease expert, Dr. Nahid Bhadelia, a frequent guest on national television, Palm Beach County Vice Mayor Gregg Weiss, and a special guest from the Department of Transportation to discuss the new COVID-19 variant and the impact the passage of President Biden's Infrastructure Law will have on Florida.

This telephone townhall will allow you to interact with me from the comfort of your own home, and is open to all residents of Florida's 21st Congressional District. If you're interested in participating, you can register at frankel.house.gov/live. During the call, I'll take live questions from the

audience. However, you can also submit your questions ahead of time here: <https://forms.gle/ByK7Sxyba5iZszhD8>.

It is going to be a great conversation that you won't want to miss. I hope you'll join me!

Sincerely,

A handwritten signature in blue ink that reads "Lois Frankel".

Congresswoman Lois Frankel

Rep. Frankel | 2305 Rayburn, House Office Building, Washington, DC 20515
