

OFFICE OF CONGRESSWOMAN LOIS FRANKEL (FL-21) | JANUARY 18, 2022

Rep. Frankel Announces Free At-Home COVID Tests

West Palm Beach, FL – Today, Congresswoman Lois Frankel (FL-21) announced the Biden Administration’s plan to for making free at-home COVID-19 tests available to the public. Households will now be able to order up to four tests at a time through [COVIDTests.gov](https://www.covidtests.gov) to be delivered to their homes in 7-12 days.

“This is great news for us in South Florida where long lines at testing locations and sold-out rapid tests have made it harder for folks to know their COVID-19 status,” **said Rep. Frankel.** “If you or a loved one has been exposed to COVID-19 or has started to experience symptoms, getting tested is a great tool to catch this illness early on to prevent further spread. We all want life to get back to normal, so please get vaccinated, follow CDC guidance, and test if necessary to keep yourself and others safe.”

Please visit [cdc.gov](https://www.cdc.gov) to access the most up-to-date quarantine guidance from the Centers for Disease Control and Prevention.
