

Dear Neighbor,

On Monday, a draft Supreme Court opinion by Associate Justice Samuel Alito was leaked. The document detailed the horrifying reality that the Supreme Court is likely poised to overturn decades of precedent by striking down *Roe v. Wade* and *Planned Parenthood v. Casey*, effectively eliminating the right to abortion care in dozens of states and jeopardizing reproductive freedom for millions of Americans.

First thing's first, I want to emphasize that abortion is still legal, and this draft opinion doesn't change that, yet.

However, if the Court finalizes this opinion, it is devastating news for our country.

This would allow state politicians to take control over an individual's reproductive freedom and deny them access to health care they need and want—it's horrendous. The decision of whether and when to bring a child into this world should be made by the person who is pregnant, in consultation with their doctor, not by their Governor or any other politician.

We are in a fight to make sure everyone, in every state, has the power to control their own bodies, lives, and futures.

Last year, the House passed the *Women's Health Protection Act*, which I helped introduce, to protect access to safe legal abortion access regardless of a harmful judicial opinion like this. The U.S. Senate has so far failed to advance it.

At the end of the day, abortion is health care, and I will do everything I can to ensure everyone has access to the care they need to live healthy, fulfilled

lives. I will keep fighting to protect abortion access regardless of zip code or income level.

Sincerely,

Congresswoman Lois Frankel

Rep. Frankel | 2305 Rayburn, House Office Building, Washington, DC 20515
