

Official Update on Atlantic Avenue Expansion

From the Florida Department of Transportation (DOT) District 4 Office:

On 3/15/2023 Lake Worth Drainage District approved the design concept using their right of way for the roadway widening. The DOT now has a green light to move forth with the PD&E study and hold public hearing. Soon the DOT will move into the next phase, Design + Right of Way (ROW)+ then Construction. Fundings have been programmed for both design and ROW. Construction phase has not been funded and the DOTs anticipate that it will for fiscal year 2029 or sooner if money becomes available.
