National Medical Director, Vascular Surgery and Endovascular Therapy, Tenet Healthcare Corporation

Treat Carotid Artery Disease and Help Prevent Stroke **with TCAR**

Scan the QR code above or call 844.968.4548 to find a vascular surgeon.

Delray Medical Center is the first in South Florida to treat carotid artery disease and prevent future strokes using TransCarotid Artery Revascularization (TCAR). TCAR is a less-invasive treatment option used to repair clogged carotid arteries, reducing the risk of stroke. Well-suited for those patients at higher risk of complications from carotid surgery due to age, anatomy, or other medical conditions, it holds low stroke risk and faster patient recovery.
