Showcasing Efficient Governance to Our Community

Clerk Abruzzo joined residents of the Independent Condominium Associations at Kings Point in Delray Beach to discuss how the Clerk's office is putting automation to work in order to save money and increase efficiency.

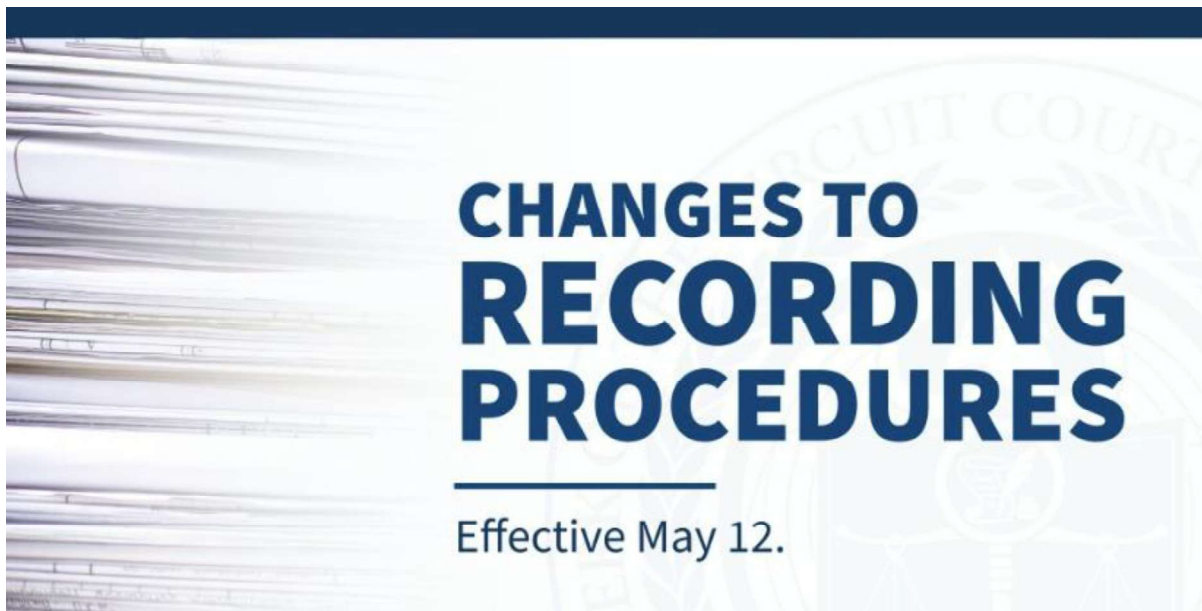

We are using artificial intelligence to scan and docket many electronically-filed court records, enabling our staff to focus on the most important cases – the people we serve.

New Spanish and Haitian Creole YouTube Playlists

The screenshot shows the 'eCaseView' search interface for the Clerk of the Circuit Court & Comptroller, Joseph Abruzzo. A dark blue callout box with white text reads: 'Ingrese el número de caso o su nombre y apellido para buscar la información de su caso.' The interface includes a 'Search Criteria' section with the following fields: 'Case Number' (with a placeholder '(Example:)'), 'Name Search Type' (set to 'Exact Name Search'), 'Last Name / Company Name', 'First Name', 'Middle Name', 'Court Type' (set to 'All - Court Types'), and 'Case Type' (set to 'All - Case Types'). A video player interface is visible at the bottom, showing a progress bar at 0:25 / 1:23 and various control icons.

We're here to serve everyone in Palm Beach County - which is why we recently published two new playlists: [Spanish](#) and [one in Haitian Creole](#).

Document Recording Process Update

Changes to our [recording procedures](#) went into effect May 12, 2025.

Customers who bring documents to our counters to be recorded in-person will now get their original document back with a manual stamp. You can choose to have a manual stamp on the original document that says, "recorded on (date)". You will also receive a copy of the first page of the recorded document.

Customers who mail their documents to be recorded will get their original document back without a manual stamp on the original document that says, "recorded on (date)" and will receive a copy of the first page of the recorded document.

No changes are being made to the eRecording process.
